Computer science student at San Jose State University building developer tools, browser games, and Python applications. Seeking software development or QA internships, with experience in debugging, technical troubleshooting, and team support.

EDUCATION

San Jose State University | B.S., Computer Science

Aug 2026 - Jun 2028 (expected)

De Anza College | A.S., Computer Science

Sep 2023 - Jun 2026

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C++, HTML, CSS

Tools: Git, GitHub, Node.js, VS Code, Claude Code

Development: Object-oriented programming, debugging, static analysis, Canvas, responsive web interfaces

SELECTED PROJECTS

W0ND3R Guard | Node.js, Lua static analysis, CLI

- Built a CLI scanner for FiveM Lua scripts to flag hardcoded secrets, missing permission checks, and SQL queries assembled through string concatenation.
- Added automated tests and used the scanner on real Lua code to produce actionable findings.

The Health Platformer / Java Game Capstone | Java, JavaScript, Canvas

- Built a Java game with Player, Level, Inventory, and Projectile systems; resolved classpath and resource-loading errors.
- Continued the project as a browser game with physics, levels, power-ups, and mobile controls.

Wedding Seating Chart | JavaScript, HTML, CSS

- Created a responsive guest lookup tool with real-time name search, table assignments, and QR code entry for mobile use.

CSV Order Processor | Python

- Wrote reusable functions to read CSV order files, calculate totals, and generate a readable summary.

EXPERIENCE

CVS Health | Shift Supervisor, part-time | Oct 2025 - Present

- Support daily store operations, coordinate staff, and resolve customer issues in Mountain View; previously worked in Sunnyvale.

U.S. Marine Corps Reserve | Electrical Technician, part-time | Jun 2023 - Present

- Diagnose equipment faults through systematic checks, explain repairs to teammates, and train others on equipment operation and care.

SELECTED COURSES & CERTIFICATIONS

Anthropic: AI Fluency: Framework and Foundations; Claude Platform 101; Claude Code 101 (Aug 2026)

Codecademy: Getting Started Off-Platform for Data Science (Jun 2026); Learn C++ (Sep 2024)

Udemy: Java 17 Masterclass
